Review of Accounting and Cost Allocation Requirements

ASD File No. 98-64, United States Telephone Association Petition for
Rulemaking

CC Docket No. 96-150, In the Matter of the Implementation of the
Telecommunications Act of 1996: Accounting Safeguards Under the
Telecommunications Act of 1996

Dear Ms. Salas:

In accordance with the Commission's rules, please be advised that on July 24, 1998, Mr. Carl Geppert of Arthur Andersen, Mr. Mike Crumling representing USWEST and the undersigned, representing SBC Communications Inc. met with Mr. Kyle Dixon, Legal Assistant to Commissioner Michael Powell. The purpose of the meeting was to discuss and answer questions regarding Arthur Andersen's paper, *Accounting Simplification in the Telecommunications Industry*. A summary of the discussion is outlined in the attachment.

Prior to the release of the Accounting Notice, Arthur Andersen began development of the position paper to provide critically needed analysis of the Commission's USOA. The conclusion reached in this accounting position paper is that extensive reform of USOA, well beyond that contemplated those contemplated in the above Accounting Notices, is urgently needed. These recommendations can be adopted now to ease the recordkeeping burdens on **all** LECs with the ultimate goal being full reliance on Generally Accepted Accounting Procedures (GAAP).

The proposals for simplification and/or elimination discussed in the position paper should be adopted expeditiously by the Commission. They provide a framework for a *transition* from today's detailed Part 32 regulatory accounting and recordkeeping requirements to more of a "level playing field" where all carriers are subject to the same requirements under GAAP.
